

HARVESTER TYRES - DRIVE WHEEL

TRAXION^{OPTIMAL}

THE NEXT GENERATION VF TYRE

FEATURES	BENEFITS
<p>Innovative carcass construction enabling up to 25% lower inflation pressure in the field</p> <p>Traxion concept with unique tread compound and high rubber content for 30% better wear resistance</p> <p>10% higher radial stiffness**</p>	<p>7%* higher productivity and 7%* lower fuel consumption</p> <p>15%** larger footprint for less soil compaction and higher yield</p> <p>30% longer life***</p> <p>Maximum stability at heavy road transport</p>

* According to tests conducted by DLG, compared to premium European IF competitor tyre.
 ** According to measurements by Vredestein testing dept, compared to premium European VF competitor tyre.
 *** According to Vredestein R&D compared to premium European IF and VF competitor tyres.

Ø	Tyre size	Service description	Nominal inflation pressure (bar)		 mm	 mm	 mm	 mm	Page
